"MULTIVERSE POSTCARDS 5"

HAS EMIL GONE MAD?

It was established a long time ago that the Starving Artist formerly known as Emil stretched polite society's definition of anti-social and deviant hooliganism but, I do now fear that the Emil we all came to love to hate may be dead to this world as he claims to have discovered an lazy man's natural approach to what he calls "Harmonic Modulation"

by the proper usage of Curry Pancake batter mixed with a highly secretive formula of 16 herbs and spices that he borrowed (stole?) while on a day pass to the Alexandria Mystery School's main campus.
Emil says that unlike the highly acclaimed method of nanotech pioneered by Billy D. Gates and his newly acquired Aceme Heavy

to change your core harmonic frequency to modulate to various Multiverse wave lengths enabling you to successfully sneak over the embargo barriers that have been placed upon all of CIS Humanity and skip the Multiverse Immigration's procedures and need of a visa.
While Emil freely admits that there are several substantial

drawbacks such as this style of entry is illegal and I have been told by other gurus that the Multiverse is much like Singapore in that there are very high fines for misbehaving although, I don't believe that that they cane offenders; Emil contends that there are more than a few immigration brokers on the other side willing to risk punishment to

supply you the proper skin scans and barcodes needed to move, rent or (even) buy food in the Multiverse.

Emil did note that these services are a tad bit costly but, in the Multiverse you get the quality that you pay for (much like Atlantic City or so Emil says) and unlike Billy D. Gated and Skynet; you are not limited to "day-pass"

sales and marketing reps tell you. Emil says they lie like big time! They do so because they are on commission-only employment and if they swear they aren't, they are lying about all that too! Given this, we continue to publish this series as Emil may well need massive funds to address his growing mental health issue(s).
